Kranjska Gora is renowned as the best year-round entertainment, sporting and recreational centre in the Julian Alps. A picturesque place surrounded by an unforgettable backdrop of mountains, it lies on the edge of Triglav National Park at an altitude of 810 metres and in the immediate vicinity of the tri-border area between Slovenia, Austria and Italy. The altitude at which Kranjska Gora lies is one of the most favourable for the physical conditioning of athletes. The village is removed from large cities and their accompanying hustle and bustle and, with its unspoilt nature, is supremely suitable for athletes wishing to train and prepare in complete tranquillity.
